Getting ready to leave out for my 24th straight year at OSH. (I flew my Vaireze to Osh for 9 straight years) I will have my Nose Lift display in Nat's booth once again this year. We now have over 119 Nose Lifts delivered and about 87 that are flying. I invite all the folks flying with them to come by and let me know how you like them and has anyone had any problems with the system. I have an interesting new option for the Nose Lift this year. Come buy and take a look. Thanks to all of you for making this option for the EZ designs a tremendous success.

Steve
