

the cost, flying a rental airplane to the islands can be almost as cheap as chartering from Olympic Aviation.

All too soon, Karamichalis determined my flying skills were sufficient to turn me loose. I was grateful for his confidence but sad because my vacation was over the next day, and I knew I wouldn't get a chance to make any flights on my own.

Next time, I'll know to start with an excellent instructor such as Karamichalis. His help and that of my English-speaking friend made the experience of flying in Greece relatively painless and certainly memorable.

Tour de Plains

In your October 1990 issue ("On Course: Air Tours, 1990s'-Style"), Richard L. Collins wrote about air tours of yesteryear. The tours were a good idea then and still are. I'm organizing a spring 1991 Nebraska Air Tour. The Lincoln and Omaha press have picked up the story, and to date, I have 10 folks who are ready to go. Anyone interested in coming along is welcome. Contact me at 852 NBC Center, Lincoln, Nebraska 68508. Thanks for the idea.
